

# Concept et fonctionnement

- Ces fiches peuvent être réalisées en **autonomie** par les élèves.
- Ce sont des activités de **repérage dans l'espace**. Elles font partie des "Activités de Réussite Basées sur le Réinvestissement des Elèves" (ARBRE) qui peuvent mises en place facilement en classe dans les différents domaines d'apprentissage.
- Au fur et à mesure du fichier, la **difficulté** des labyrinthes augmente.
- Les labyrinthes permettent à la fois de **travailler** le repérage dans l'espace et sur une feuille, mais aussi la coordination œil-main, la logique ou encore la discrimination visuelle.
